

APPENDIX F-267

COMPUTATION OF OWRMR - SUMMARY DATA

1. PURPOSE

The purpose of this report is to provide a record each time the computation is performed containing summarized computed data for the categories determining the constraints of this listing. These figures may not agree with figures on the F-176T Report.

2. FREQUENCY

This report is produced each time a War Reserve computation is performed, usually every February, but may occur more frequently on an AS REQUIRED basis whenever authorized by HQ DLA-OSR.

3. FORMAT

a. Heading line (Standard Identification).

b. Data Organization:

(1) Sequence - Summarized.

(2) Number of lines per page is fourteen significant data lines on a single page.

(3) Spacing is single between lines of data within the two categories which are double spaced.

(4) Page break - Single page report.

(5) Required totals are all summaries of the report.

c. Captions of Data Elements:

(1) COMPT DT - Computation Date, official effective date of the computation, manually annotated by the monitors as required or deemed necessary.

(2) DESCRIPTION - TOTAL - NUMBER - \$VALUE (000).

(a) 1 WMR THRU D+6 - The total number of items having War Materiel Requirements in the computation and the applicable total dollar value of the WMR.

1. ARMY - The Army Service's total number of NSNs with WMR and the corresponding total dollar value of the WMR.

2. AIR FORCE - The Air Force Service's total number of NSNs with WMR and the corresponding total dollar value of the WMR.

3. MARINE CORPS - The Marine Corps Service's total number of NSNs with WMR and the corresponding total dollar value of the WMR.

4. NAVY - The Navy Service's total number of NSNs with WMR and the corresponding total dollar value of the WMR.

5. TOTAL NSNs - The total all Service's number of NSNs with WMR and the corresponding total dollar value for all WMR.

(b) COMPUTATION OF OWRMR - The total number of NSNs and respective corresponding dollar value totals.

1. WMR TO P-DAY - The total number of NSNs and applicable total dollar value of all WMR to P-Day.

2. POST D-DAY SAFETY LEVEL - The total number of NSNs used in the Post D-Day Safety Level and the total dollar value of the particular quantity.

(c) TOTAL RQMTS - The sum dollar value total of the dollar values from subparagraphs 1 and 2 above. (Number field remains blank.)

(d) PEACETIME ASSETS -

1. SAFETY LEVEL - The total number of NSNs and the corresponding dollar value for those Peacetime Safety Level Assets applied.

2. AVER MO DMD - The total number of NSNs and the dollar value of the Average Months Demand (AMD) applied for the computation.

3. PEACETIME PRODUCT TO P-DAY - The dollar value of the Peacetime Product received through P-Day as applied in the computation. (Number field remains blank.)

4. TOTAL PEACETIME ASSETS - The sum dollar value total of subparagraphs 1, 2, and 3 above. (Number field remains blank.)

(e) WMPC TO P-DAY FOR PROD PLANNING ITEMS - The number of DLA managed items for which production planning was performed and the dollar value of the WMPC to P-Day for these items.

(f) OWRMR - The number of items for which positive OWRMRs were computed and the total dollar values for these OWRMR quantities.

4. DISTRIBUTION AND RETENTION

Two copies of this report will be furnished to the monitor in the MSO, DSO. Upon request, a copy may be forwarded to HQ DLA. This report is exempted from the requirements for a reports control symbol as defined by DLAR 5000.12, Management and Control of DLA Information Requirements.

Retention will be in accordance with (IAW) local procedures and the report will be retired IAW DLA Files, Maintenance and Disposition Manual, DLAM 5015.1, and chapter 59, The War Reserve Program, this manual.

5. PROCEDURES FOR REVIEW AND PROCESSING

This report will be used for review, analysis and source data by the monitor or as required in conjunction with other War Reserve reports. A copy will be furnished HQ DLA upon request.
